

Tyfone Highlights Connected Smart Card Solution at the NFC Solutions Summit 2013

PORTLAND, Ore. – May 13, 2013 – Tyfone (www.tyfone.com), the platinum sponsor for the NFC Solutions Summit 2013 (May 15-16, Hyatt Regency San Francisco Airport), will present challenges and opportunities in mobile security and digital ID, in addition to demonstrating the new Connected Smart Card™ (CSC™) solution, at booth #201. Tyfone is a mobile financial and security pioneer, providing a hardware and software platform for managing IDs locally while allowing access to any data centrally.

As a featured keynote plenary speaker at the Summit, including speakers from Sony and Visa, Tyfone CEO, Dr. Siva Narendra, will speak about connected smart cards, NFC and mobile security.

Who: Tyfone CEO, Siva Narendra

What: Title: “Mobile Security – Extending Secure Identification and Authentication to Mobile Devices”

When: 8:30 a.m. on Wednesday May 15, 2013

Where: NFC Solutions Summit: Hyatt Regency San Francisco Airport, Burlingame, CA

Tyfone will have the following resources available for those in attendance at the NFC Solutions Summit:

- Media availability of Tyfone CEO, Siva Narendra, and CFO/Business Development, Don Bloodworth

About Tyfone

Tyfone is a pioneer in mobile security and transaction services for financial, government, B2B, healthcare, and other enterprises, and has received more than 300 issued invention claims and has more than 80 issued and pending patents in the areas of mobility and security. Tyfone’s mobile apps, transaction software and Connected Smart Card (CSC) security hardware enable ID and transaction security on any mobile OS or device. The company’s mobile solution has processed over ten million transactions and has helped transact over \$200 million. Tyfone customers include two of the top 10 member-owned financial institutions in the U.S. and the company recently signed a strategic agreement with In-Q-Tel to bring Tyfone’s mobile security solutions to the U.S. Government. Tyfone has its corporate headquarters in Portland, Oregon and its Asia-Pacific headquarters in Bangalore, the “Silicon Valley of India.”
