

# Tyfone to Showcase Unique Mobile Banking Security Technology at Money2020 for FIs to Augment Passwords and Digital IDs

Tyfone's CEO to highlight cyber security and biometric vulnerability fixes in Money2020 Panel

PORTLAND, Ore.- October 2, 2013

Tyfone ([www.tyfone.com](http://www.tyfone.com)), a secure mobile ID and transactions solutions provider, will showcase The Connected Smart Card™ (CSC™) technology at Money2020, booth 616 (Aria Resort, Las Vegas, October 6-10), uniquely combining both hardware and software for unparalleled security in mobile banking. Tyfone's CSC delivers the proven solutions that are recognized by leading experts in the field of security.

Tyfone's chief executive officer, Dr. Siva Narendra, will also participate in the "The Lurking Menace: Cybercrime, Data Security and Privacy Rights" panel (October 6, 1:55 to 2:45 pm, Aria Resort, Juniper Room). As a panelist at Money 2020, featuring speakers from American Express, Discover and Facebook to name a few, Dr. Narendra will highlight secure point-to-point ID authentication without bulk storage of user information.

Tyfone will also feature partnership news at Money2020, involving top 10 credit unions adapting Tyfone CSC technology for layering mobile banking security, as well as exhibiting the latest P2P technology.

## About Tyfone

Tyfone is a pioneer in mobile security and transaction services for financial, government, B2B, healthcare, and other enterprises. It has more than 450 issued invention claims and has more than 90 issued and pending patents that enable ID and transaction security on any mobile device. Tyfone's mobile apps, transaction software and Connected Smart Card (CSC) security hardware enable ID and transaction security on any mobile OS or device. The company's mobile solution has processed over twenty million transactions and has helped transact over \$300 million. Tyfone customers include two of the top 10 member-owned financial institutions (Credit Unions) in the U.S. and the company recently signed a strategic agreement with In-Q-Tel to bring Tyfone's mobile security solutions to the U.S. Government. Tyfone has its corporate headquarters in Portland, Oregon and its Asia-Pacific headquarters in Bangalore, the "Silicon Valley of India."
